

# Sustainability Coordinator

As a Sustainability Coordinator at Sif Netherlands bv, you are responsible for developing, implementing, and monitoring the company's ESG (Environmental, Social, Governance) policies. You are an expert in sustainability and corporate social responsibility and contribute to improving the company's performance and reputation in this area.

## What will you do?

You will be involved in identifying sustainability risks and opportunities within the organization and advising management on appropriate measures. You will work closely with internal stakeholders, such as the operations, HR, and compliance departments, to ensure that sustainability becomes an integral part of business operations.

Additionally, you will be responsible for preparing sustainability reports and communicating the company's ESG performance to external parties, such as investors, customers, and governments. You will stay up-to-date with relevant laws and regulations and developments in the field of sustainability and translate this into concrete actions and policies within the organization.

Responsibilities:

- Co-developing and implementing the company's ESG policy, including setting objectives and targets for sustainability and social responsibility.
- Coordinating ESG initiatives and projects within the organization to ensure they align with the company's policies and goals.
- Monitoring and evaluating the company's ESG performance and reporting the results to management and stakeholders.
- Collaborating with internal departments and external parties to build and maintain sustainable relationships that contribute to achieving ESG goals.
- Contributing to the development of sustainable solutions and innovations within the organization to reduce the impact on the environment and society.

## Where will you be working?

You will be part of the QHSE department in Roermond or Maasvlakte. This department is responsible for securing services and processes, improving and controlling quality. The department has an advisory role during the tender phase regarding quality requirements and guides possible alternatives that meet the set requirements, ensuring compliance with the company's policies and strategies. The department also ensures the implementation and securing of processes, systems, procedures, and instructions to meet the quality requirements of a project.

## Who are you?

As an ESG Coordinator, you are the key figure in communication about sustainability within and outside our company. With your strong communication skills, you convince internal and external stakeholders of the importance of sustainability and clearly report our performance. You plan, coordinate, and execute sustainability projects, always focused on achieving our goals. Your organizational talent ensures that everything runs smoothly and deadlines are met.

And you bring:

- A completed HBO/WO education in the field of sustainability, environmental science, business administration, or a related field.
- Knowledge of relevant laws and regulations in the area of sustainability and social responsibility.
- Excellent communication skills and the ability to collaborate effectively with diverse stakeholders.
- Analytical and problem-solving skills to tackle complex sustainability issues.

## What does SIF offer you?

- Attractive salary and benefits
- A one-year contract with the prospect of a permanent position
- Good pension scheme
- 25 vacation days and 13 ADV days (additional leave days)
- Training and development opportunities

- A friendly team and a pleasant working environment
- A place where you can continue to grow and develop
- Impact on the energy transition and sustainability of the Netherlands and Europe

**Your development at Sif**

With your application, you can become part of a wonderful company with strong growth ambitions. A place with craftsmanship, where there is ample room to show your entrepreneurship and continue to develop yourself. At Sif, you have a direct impact on the energy transition and contribute to a green world.
