

Transport Operator

As a Transport Operator at Sif, you play a crucial role in managing material flows and processing residual streams, making a significant contribution to the energy transition. Sif is one of the largest manufacturers of steel tubes (up to 2,000 tons) for offshore wind turbines.

What will you do?

Using a forklift and various cranes, such as overhead cranes, you will move and process materials. You have a crucial role in the hall, ensuring that others have the right materials and that everything runs smoothly. You look ahead and are willing to make decisions. The process runs smoothly because you always have an overview of what is happening around you. Thanks to your initiatives, the welder has his materials on time, and the hulls are in the right place. As a Transport Operator, you have a responsible job where you work independently. These are some of your tasks:

- You unload and transport hulls and other materials using an overhead crane/magnet crane according to lifting plans.
- You scan hulls and register the check-in of plates.
- You perform visual checks on the lifting equipment.
- You unload push barges and load AGVs in the inlet harbor.
- You move hulls, welding aids, and materials.
- Using a forklift, you separate waste and ensure its disposal.

What does Sif offer you?

An exciting and challenging position at a market leader in a rapidly growing and future-proof industry. Moreover, there is plenty of room for development, and you will receive adequate guidance. A place where your craftsmanship is valued.

- An excellent annual salary between €34,000 and €43,000 based on a 40-hour workweek.
- You receive 25 vacation days and 13 ADV (reduction of working hours) days.
- Your pension is well arranged through the Pension Fund for Metal and Technology. Sif contributes 78% to the pension.
- You receive a travel allowance of €0.23 per kilometer.
- A warm working atmosphere in a team of motivated colleagues, always up for a joke.
- Sif has been in existence for more than 75 years – a stable, growing organization. There is room for ambition and initiative.
- You feel welcome. We have an extensive onboarding program.
- The opportunity to contribute to the energy transition and a more sustainable world.

Who are you?

- You have a VCA Basic certificate in Dutch or English or are willing to obtain one.
- For the Maasvlakte location, an aerial work platform certificate is mandatory.
- You are decisive and take initiative.
- You have crane/lifting instruction.
- You have a forklift certificate.
- Willing to work in our 3-shift system.
- Startdate is in negotiation.

In short, you have a passion for metal with a keen eye for detail. You bring not only skills but also enthusiasm to our team.

Who are we?

Sif is a Dutch company founded in 1948. We have become a leading company in our industry, delivering steel monopile tubes for offshore wind parks. Wind energy is the future, and we are committed to it with 600 professionals from two production locations in the Netherlands: Roermond and the Tweede Maasvlakte in Rotterdam. Since May 2016, Sif has been listed on the stock exchange.

Our company culture is based on collaboration, quality, and dedication to safety. You will be part of a passionate team determined to accelerate the energy transition.

Is this your new challenge?

As a Transport Operator at Sif, you can play a key role in our production process and the energy transition. Do you have the experience and skills we are looking for? Do you want to be part of our enthusiastic team? Apply today and contribute to a more sustainable future at Sif. Together, we

create impact!
