

SHEQ Coordinator Maasvlakte

Are you a driven professional with a passion for quality, health, safety, and environment (SHEQ)? Do you want to play an important role in improving and ensuring these processes within an innovative organization active in the offshore wind industry? At Sif Netherlands BV, you have the opportunity to contribute to the energy transition as a SHEQ Coordinator and to our growing impact on sustainable energy, including taking leadership responsibility on-site.

What will you do?

As a SHEQ Coordinator, you will be responsible for developing, implementing, and improving our SHEQ policy. You will work closely with various departments within Sif to ensure that our quality standards, safety requirements, and environmental objectives are met. Additionally, you will play an active role in identifying areas for improvement, ensuring a safe and healthy working environment, and taking site-specific leadership responsibility to ensure that SHEQ objectives are achieved on-site.

You will report directly to the SHEQ Director.

Your tasks and responsibilities:

- **Support and coordinate SHEQ activities:** You develop and implement SHEQ processes and procedures and ensure compliance at all levels of the organization.
- **Leadership responsibility on-site:** You operationally guide the on-site staff to ensure compliance with SHEQ standards and ensure efficient execution of SHEQ activities.
- **Audits and inspections:** You coordinate internal and external audits to ensure compliance with legal and company-specific requirements. You also follow up on results and implement improvement actions.
- **Increase safety awareness:** You organize training sessions, toolbox meetings, and other awareness campaigns to promote safety and health in the workplace.
- **Incident investigation:** You are involved in analyzing incidents and near-misses and ensure follow-up and reporting to relevant parties.
- **Compliance and reporting:** You ensure that the organization complies with all relevant SHEQ legislation and internal standards. Additionally, you regularly report to management on the progress and performance of SHEQ initiatives.
- **Environmental management:** You support the development and implementation of sustainability initiatives and environmentally friendly practices.

What do you bring?

- A completed HBO (higher professional education) degree in a relevant field, such as Safety Management, Environmental Science, or Technical Business Administration.
- At least 5-8 years of experience in a SHEQ role within a technical or industrial environment with overall responsibility.
- Excellent knowledge of safety standards, quality management systems (e.g., ISO 9001, ISO 14001), and environmental legislation.
- Strong communication skills and the ability to engage at various levels within the organization.
- A proactive attitude with attention to detail and problem-solving skills.
- Experience in leadership and managing on-site teams is a plus.
- A true team player with a passion for safety, sustainability, and quality.

What does Sif offer you?

- Top of class salary and benefits;
- Good pension scheme;
- 25 vacation days and 13 ADV days;
- Education and training opportunities;
- A friendly team and a fun work environment;
- A place where you can continue to grow and develop;
- Impact on the energy transition and sustainability of the Netherlands and Europe;

Your development at Sif

With your application, you can become part of a wonderful company with strong growth ambitions. A place with craftsmanship, where there is room for entrepreneurship and where you can continue to develop yourself. At Sif you have a direct impact on the energy transition and contribute to a greener world.
