

# Flame Cutter

As a Flame Cutter at Sif, you hold a responsible role in machine cutting shapes using specific equipment. Your role is crucial in the production process, where precision and efficiency are paramount. As a leading manufacturer of steel tubes, with an impressive weight of up to 2,000 tons, for offshore wind turbines, Sif contributes to a sustainable future. Will you join us?

## What will you do?

As a Flame Cutter, you work closely with the flame cutting machine on massive steel plates of approximately 42 tons and up to 27 meters long. Due to the unique materials and equipment we work with, precision is essential. You conduct regular checks because we operate according to the highest quality standards. Our steel monopile tubes for wind farms withstand extreme weather conditions at sea, requiring craftsmanship, and that's what we stand for. You also perform regular maintenance on the machines and troubleshoot common technical issues.

You work with an enthusiastic and friendly team. At Sif, you work in a 3-shift system, providing stability and clarity. Your work directly contributes to the quality and efficiency of our production process. You play a key role in ensuring the safety and quality of our products, which is crucial for the success of Sif.

## What does Sif offer you?

A fun, challenging position with a market leader in a rapidly growing and future-proof industry. Moreover, there is ample room for development, and you will receive sufficient guidance—a place where your craftsmanship is appreciated.

- An excellent annual salary ranging from €32,900 to €38,500 based on a 40-hour workweek.
- You receive 25 vacation days and 13 ADV (reduction of working hours) days.
- Your pension is well-managed through the Pension Fund for Metal and Technology, with Sif contributing 78%.
- You receive €0.23 per kilometer for travel expenses.
- A warm working atmosphere within a team of dedicated colleagues, always up for a good laugh.
- Sif has been in existence for over 75 years—a stable, growing organization with room for ambition and initiative.
- You'll feel welcome, with an extensive onboarding process.
- The opportunity to contribute to the energy transition and a more sustainable world.

## Who are you?

- You have a VCA Basic certificate in Dutch or English, or are willing to obtain one.
- You work with precision and have an eye for detail.
- Willing to work in our 3-shift system.
- Start per beginning of week 48.

## Who are we?

Sif is a Dutch company founded in 1948. We have become a leading player in our industry, supplying steel monopile tubes for offshore wind parks. Wind energy is the future. We pursue this with 600 professionals from two production locations in the Netherlands: Roermond and the Tweede Maasvlakte in Rotterdam. Since May 2016, Sif has been listed on the stock exchange. Our company culture is based on collaboration, quality, and a commitment to safety. You'll be part of a passionate team determined to accelerate the energy transition.

## Is this your new challenge?

As a Flame Cutter at Sif, you contribute to the success of our production process. Do you have the necessary experience and skills? Do you want to be part of our passionate team? Apply today and contribute to a sustainable future at Sif. Together, we make an impact!
