

Plate Roller

As a Plate Roller at Sif, you play a crucial role in rolling and welding 8 to 11-meter plates with thicknesses of 110 mm to form cylindrical shells. You contribute to the serial and custom production, where each workpiece has unique dimensions. Sif is one of the largest manufacturers of steel pipes (up to 2,000 tons) for offshore wind turbines. Within our close-knit and committed team, you can make a difference.

What will you do?

As a Plate Roller at Sif, you contribute to the entire production process. In the preparation phase, you receive instructions and drawings. You work with great precision to create perfectly round shells and cones. In the rolling and welding phase, you set parameters on the rolling machine according to instructions. Accuracy is a crucial aspect of this challenging role, with minimal deviations allowed. There is no other place in the Netherlands where you work with such large materials and precision, and at Sif, we provide the opportunity for you to learn. Our massive steel monopile tubes for offshore wind parks withstand all weather conditions, thanks in part to your meticulous work.

Safety comes first. Before you start, you ensure that you wear the correct protective gear and perform a safety check. Then, you set up the equipment correctly and according to prescribed procedures. You carefully monitor the quality of your work.

What does Sif offer you?

An enjoyable, challenging position with a market leader in a rapidly growing and future-proof industry. Moreover, there is ample room for development, and you will receive sufficient guidance—a place where your craftsmanship is valued.

- An excellent salary between €34,000 and €43,000 based on a 40-hour workweek.
- You receive 25 vacation days and 13 ADV days.
- Your pension is well arranged through the Pension Fund for Metal and Technology. Sif contributes 78% to the pension.
- You receive €0.23 per kilometer in travel expense reimbursement.
- A warm working atmosphere in a team of motivated colleagues, always up for a good laugh.
- Sif has been in existence for over 75 years. We are a stable, growing organization, leaving room for ambition and individual initiative.
- You'll feel welcome. We have an extensive onboarding program. You will be guided by an experienced colleague, and we do everything to make you feel at home quickly.
- The opportunity to contribute to the energy transition and a more sustainable world.

Who are you?

You have:

- Possession of a valid VCA Basic certificate in English or Dutch, or willing to obtain one.
- Willingness to work in a 3-shift system.
- You have a passion for metalworking.
- Start per beginning of week 46.

In short, you have a passion for metal with a keen eye for detail. You bring not only skills but also enthusiasm to our team.

Who are we?

Sif is a Dutch company founded in 1948. We have become a leading player in our industry, delivering steel monopile tubes for offshore wind parks. Wind energy is the future, and we pursue this with 600 professionals from two production locations in the Netherlands: Roermond and the Second Maasvlakte in Rotterdam. Since May 2016, Sif has been listed on the stock exchange. Our company culture is based on collaboration, quality, and dedication to safety. You will be part of a passionate team that is determined to accelerate the energy transition. You will work in a dynamic environment where no day is the same.

Is this your new challenge?

As a Plate Roller at Sif, you are part of a dynamic team and contribute to our mission. Are you ready for this challenge? Apply today and make an impact on a sustainable future at Sif.
